PROFILE

Full-stack engineer with **~2 years of professional experience** (Nov 2024 – present) designing, building and launching production software end to end — mobile apps, multi-tenant SaaS, e-commerce and automation. Founder of AGX Studio, a product studio with 12+ live products across food delivery, logistics & IoT, SaaS and retail. Previously built WhatsApp CRM, AI content and assessment products at Consult Anubhav. Deep hands-on experience with React Native, Next.js, Node.js, AWS serverless, the WhatsApp Business API and payment integrations.

~2 yrs Professional experience	12+ Live products shipped	8+ Apps on App Store & Play	8 Industries served

EXPERIENCE

Founder & Lead Engineer — AGX Studio, Vadodara

2025 – Present

Product studio building apps, SaaS and automation for founders and businesses — I lead product, architecture, development and launch.

- **KhaaoNow** — food-delivery ecosystem: customer, restaurant and delivery-partner React Native apps live on App Store & Google Play, real-time order tracking, Razorpay payments and rider payouts; moved the backend to AWS Lambda behind CloudFront.
- **Paroso** — multi-tenant café POS SaaS: QR table ordering, live order board, kitchen display, GST billing, recipe-level inventory, 10 automations and 33 brandable ordering-page designs; deployed serverless on AWS with SST.
- **Wheelboard** — commercial-transport platform: Flutter app, web platform and admin console in 4 languages; live vehicle tracking from GPS and OBD-II devices, trip management, KYC and subscriptions.
- **FlowSell** — Meta Business Partner CRM unifying WhatsApp, Instagram and Messenger: shared inbox, AI chatbots, broadcasts and a visual flow builder, plus a WhatsApp API platform with JS, PHP and Python SDKs.
- **Commerce & booking** — MAK Watches (Go backend, Delhivery automation), moppy (UPI live drops), Little Memory (Sanity CMS, multi-currency, international payments), Club Eleven (turf booking with live slots & QR check-in), Katoro, Bartera, SellerBox.

Full-Stack Engineer — Consult Anubhav, Vadodara

Nov 2024 – Jun 2026

Joined as a full-stack engineering intern; appointed full-time in 2026. Built and shipped the company's product portfolio.

- **WhatsEase** — WhatsApp-based CRM and AI-bot product: WhatsApp Cloud API onboarding, in-chat payment configuration, bulk messaging, event ticketing with QR check-ins and post-event analytics; CI/CD deploys to AWS EC2.
- **Krosspost.ai** — multi-platform content distribution & automation: modular frontend refactor, bulk email and WhatsApp sends, and Meta app review / Tech Provider verification.
- **GPT2Docx** — AI-powered platform that turns text, markdown and data into well-structured DOCX documents.
- **Catalyst Quizzing Platform** — real-time assessments used by corporate training leaders; also contributed to **EaseData.ai** (AI data analysis).
- Recognised by the CEO in a certificate of completion for "passion, creativity, and a solution-oriented mindset" (June 2025).

SKILLS

Mobile	React Native, Expo, Flutter, App Store & Play releases
Frontend	Next.js, React, TypeScript, Tailwind CSS
Backend	Node.js, Express, NestJS, Go, Python, REST, WebSockets
